EARLY CAREER RESEARCHER PROGRAMME

2021/22

THE UNIVERSITY OF CAMBRIDGE
CONSERVATION RESEARCH INSTITUTE

www.conservation.cam.ac.uk/ecr
ABOUT THE ECR PROGRAMME

These events are only available to staff, post-docs and students across the University of Cambridge.

The Early Career Researcher (ECR) Programme at the University of Cambridge Conservation Research Institute (CRI) is designed to provide skill development and support to graduate students and postdoctoral researchers within an interdisciplinary and collaborative research environment. The programme will help to create new insight and understanding of different approaches and methodologies, and complement the training that is on offer within Departments and the University.

The ECR programme is targeted at those whose research addresses conservation in the broadest sense which appeals to researchers from across all six Schools. The programme is delivered through a variety of learning approaches and formats, emphasising the importance of interactive experience to promote active engagement for a deeper and enhanced cross-disciplinary understanding. By participating in these workshops, and the associated informal networking events, CRI provides participants opportunities to meet conservation-related researchers from other disciplines and create avenues for collaboration in research.

Please note that this year's programme will be presented in a hybrid format and will be held in the David Attenborough Building (DAB) and via Zoom. Due to restrictions on occupancy within the DAB, there will be a limited amount of space for in-person attendance and registration for this option will be operating on a first-come-first-serve basis. Zoom details will be sent the week of the workshop.

**BRITISH ANTARCTIC SURVEY**

*21 JAN*

12pm - 1pm  Main Seminar Room

**SPEAKERS**

British Antarctic Survey

**ABOUT**

This workshop will talk about what the BAS polar data centre dataset does, the data that is available and go into detail about some of the biodiversity and biological long term monitoring data that are held.

---

**WRITING FOR THE GUARDIAN**

*4 FEB*

12pm - 1pm  Weston Room

**SPEAKERS**

Phoebe Weston

**ABOUT**

This workshop will focus on how researchers can communicate with the media, what stories we're interested in, how to communicate them and how not to communicate them.

---

**CAPACITY BUILDING IN CONSERVATION**

*21 FEB*

12pm - 1pm  Weston Room

**SPEAKERS**

Freedom Kai Philips

**ABOUT**

This workshop will review projects covered within climate and biodiversity legal assessments, as well as capacity building to identify pathways to put your research into action.

---

**ON THE GROUND (PANEL TALK)**

*11 MAR*

12pm - 1pm  Main Seminar Room

**SPEAKERS**

Charlotte Milbank (Chair), Fleur Nash, Hawa Newell-Sydique, and Kasia Lanucha

**ABOUT**

The panel will discuss best practices to ensure productive research abroad, how to collaborate in multi-cultural and internationally diverse teams, the ways in which working cultures across the globe differ, and the ethical concerns to take into consideration.
EASTER TERM 2022

29 APR
USER-CENTRED DESIGN
12pm - 1.30pm  Weston Room
SPEAKERS
Alice Lawrence
ABOUT
This session will give an overview of user-centred design (UCD): a process whereby the end-user is involved in the design of an interface or document. We will use a case study from medical communications to explore the different steps of UCD, and its application within conservation.

13 MAY
GRANT WRITING WORKSHOP
12pm - 1pm  Weston Room
SPEAKERS
Professor Bhaskar Vira
ABOUT
Professor Vira will provide an overview for those of you thinking about writing grant applications or wanting to prepare yourself for when the time comes.

27 MAY
PRESENTING CONSERVATION
12pm - 1pm  Weston Room
SPEAKERS
Media Consultant
ABOUT
Speaking to the media can seem daunting, but with preparation and practice, you can make sure that even the most challenging interview goes smoothly. In this workshop, you will learn to prepare for an interview and how to ensure you get your messages across clearly to your audiences.

10 JUN
CAREER PATHWAYS WORKSHOP
12pm - 2pm  Main Seminar Room
SPEAKERS
Cambridge NERC Doctoral Training Partnerships
ABOUT
This workshop will discuss how skills learned during your PhD can help you plan your next career step. It will advise on seeking funding & applying for jobs. Discuss whether to pursue an academic career or enter a different sector? Speakers from different sectors will share their journey post-PhD.
